Re: HILL, C. HOUSTON  
SLC#

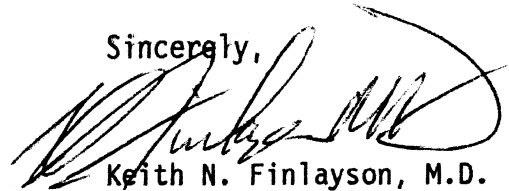

This is to certify that I have known C. Houston Hill for several years. I have known him both as a member of the Mormon Tabernacle Choir and as a co-worker in the treatment of vocal disorders.

His clinical expertise has not only included singing and the teaching of proper singing techniques, but he has been involved with me to a considerable extent with treatment of vocal disorders and their relationship with pathologic disorders of the larynx and vocal mechanism.

He has been involved at Brigham Young University with research involving vocal disorders and has worked with me in the clinical correlation of vocal disorders and their appearance on video endoscopy of the larynx and its associated structures.

I can strongly recommend him as one who is qualified to deal with the clinical treatment of vocal disorders.

Sincerely,

Keith N. Finlayson, M.D.
